

NATOMA TECHNOLOGIES AWARDED KEY CONTRACTS FOR CALIFORNIA STATE TREASURER'S OFFICE AND THE CALIFORNIA SECRETARY OF STATE

(July 28, 2016) Sacramento CA – Sacramento-based technology experts Natoma Technologies, Inc. recently was awarded two major contracts with the State of California.

The first engagement is for the State Treasurer's Office (STO). This project is to upgrade the 14-year-old Debt Management System (DMS) to the latest Oracle Technology and to make improvements to the DMS to enhance usability as well as enhanced functionality. Managing California's debt is a core mission of STO and this project will provide improved tools to execute that function. The DMS project involves project management services, analysis, technical architecture, development, upgrade, testing, deployment and operational services.

Natoma Technologies was also selected to develop the Secretary of State's LLC e-Filing system project, which will provide a public user interface to file LLC forms in a secure, user-friendly and efficient online application.

"After 18 years as a consulting and service partner with the State of California, we are honored to be chosen to support their ongoing improvements and connectivity to the most up to date technology needs. Projects like this keep California moving forward as a national software leader, which aligns with Natoma Technologies mantra to be the most efficient technology solutions provider," stated Marty McGartland, CEO of Natoma Technologies.

About Natoma Technologies

Founded in 1998, Natoma Technologies is a technical consulting firm and system integrator focused solely on public sector with headquarters in Sacramento, CA and a federal office in Arlington, VA. Since their founding in 1998, state and federal agencies have trusted Natoma Technologies to deliver information technology solutions that control costs, improve efficiency, and help them work smarter.
